

Exporting Rule: Personal Use Policy

Globally, Amway's Rules and Commercial Principles include prohibitions on exporting and importing Amway products from one market to another.

ABOs may, however, take Amway products across borders for personal use, with the following limitations:

- The ABO is visiting another country and personally places the product order in that country.
- The ABO physically picks up/receives the products in one country and personally carries the products to another country. There may be no couriers, shipping companies, or freight forwarders involved.
- If the ABO has a Multiple Business in the country visited, the order cannot be placed as a customer order for an overseas customer.
- The products are for the ABO's personal use only.
- The products may not be resold, distributed, or given away under any circumstances.
- The products ordered must not be available in the ABOs home market.
- Durables (e.g. water treatment systems, air treatment systems) may not be carried from one market to another under any circumstances.
- The ABO order must not be for more than a reasonable amount of product: under \$1,000 USD annually, not including any products that may be purchased and carried personally while on an incentive trip in another market.
- The personal use exclusion may not be used as a business-building strategy.
